Feature Updates

Presort Table Updates for December 2023

You must install this update to use the December 2023 Presort Tables and to also fix incorrect Entry Facility information on the Qualification Report.

You will not be able to roll-back to a previous version of Mail Manager to use these tables. Attempting to do so will cause an access violation.

NOTE If you are not ready to install this update, November Table Updates can be used until December 31, 2023. After that, you will be required to install this update.

Replace Option added for Bulk Mailer Template Transfer Tool

A **Replace** option has been added to the Bulk Mailer Template Transfer dialog.

NOTE Selecting this option will overwrite any existing duplicate templates.

Companion Interface

Bulk Mailer Template Transfer
Specify your template transfer settings.

Bulk Mailer Configuration File

C:\Program Files (x86)\Satori Software\Bulk Mailer\BMConfig.bmc [Browse...](#)

Options

Fixed Issues

Description	Affected Products	Internal Reference
General		
An error would occur when closing a list and Prompt to compress the list when closed was enabled in the preferences.	MM/FS	MM-9316
Mail.XML		
An error 8809 Line Block X did not map to a valid rate occurred when uploading a Mail.xml for a Marketing Mail Flat job.	MM/FS	MM-10065
MMci		
The Publication Title was being truncated to 40 characters and has been updated to 120 characters.	MM	CUI-6887
A Publication already in use error occurred when stepping through the Permit Wizard without making any changes.	MM	CUI-6879
When transferring Bulk Mailer templates, the Mail.dat License Code and SSF Login ID options were not working properly.	MM	CUI-6824
Presort		
Entry Facility information on the Qualification Report was incorrect when the Origin Zip Code was a BMEU entry.	MM/FS/LE	MM-10258

Operating System Support

Mail Manager can be installed on a wide range of platforms. For more information, see the [System Requirements](#) posted in the BCC Customer Portal.

Discontinuation of Operating System Support

BCC Software will discontinue support for Windows Server 2012 R2 on the same dates that Microsoft does. See the table below for more details:

Vendor	Operating System	Support End Date
Microsoft	Windows Server 2012 R2	October 10, 2023

IMPORTANT If you choose to continue running Mail Manager on an operating system that we no longer support, and you discover an issue that cannot be reproduced on one of the supported operating systems, you will need to upgrade your operating system to resolve the problem.

Customer Support

Technical support is included with your BCC product license. There are several ways to reach a support technician:

- Online: <https://portal.bccsoftware.com/support/contactSupport.aspx>
- Email: support@bccsoftware.com
- Phone: 800-624-5234

Release Notes Archive

Current release notes are always available on the Product Downloads page of the [BCC Software Customer Portal](#). Additionally, our [BCC Product Release Notes Archive](#) contains links to many previously published release notes.
