

# BCC Mail Manager

## Update/Patch

## Overview

---

An *update* updates a product from any version since the last shipped DVD to the current version, such as from version 02.01.13.01 to version 02.01.13.05. A *patch* updates a product from one version to the next version, such as from version 02.01.13.04 to version 02.01.13.05.

## Installation

---

1. From the Software Downloads page, <https://portal.bccsoftware.com/support/SoftwareUpdates.aspx>, click the Downloads link to access the Program Update/Patch for the current or previous DVD.
2. Click the version link in the row labeled Program update or Program patch, in the Mail Manager or Mail Manager Full Services section of the Downloads table.
3. Save the update or patch to an accessible folder, such as the default Mail Manager Installation folder (C:\BCC\- 4. After downloading the update, locate the update with Windows Explorer (C:\BCC\- 5. Click **Yes** to begin the update. When the update is complete, click **Done**.

The updated program will be used the next time that Mail Manager is opened. Refer to the Program Update/Patch release notes for a summary of the program changes.
