

TagIt Pro

Table Update

Overview

The Table Update can include files in the 'Presort Tables' and 'Data Files' folders, Help files, and the AIS City/State product.Installation.

Installation

1. From the Software Downloads page: <https://portal.bccsoftware.com/support/SoftwareUpdates.aspx>, click the Downloads link to access the Table Update for the current or previous CD.
2. Click the version link in the row labeled Table update, in the TagIt Pro section of the Downloads table.
3. Save the update to an accessible folder, such as the default TagIt Pro Installation folder (C:\BCC\TagItPro).
4. After downloading the update, locate the update with Windows Explorer (C:\BCC\TagItPro\tableupdateYYYYMMDD.exe, where YYYYMMDD represent the date of the update) and double click the file.
5. Click **Yes** to begin the update. The files in the update will be installed in the appropriate TagIt Pro folders.
6. When the update is complete, click **Done**.

The updated files will be used the next time that TagIt Pro is opened.
